**Subject:** Alternatives to Abortion Program Services - request for three renewal options

On Tuesday, May 24, Emily Kraft, Barb Simmons, and I had a meeting regarding the Alternative to Abortion Program Services RFP rebid. During the meeting, we discussed increasing the number of renewal options from two to three due to the timeframe required for rebidding and the short original contract period for the contracts that will be awarded as a result of the competitive bid process.

The rebid process started October 2015 and the anticipated award is September 2016; an approximate one-year period.

The target date for issuance of the RFP is June 6. Responses will be due eight weeks later (early August).

The contract period for contracts awarded as a result of the competitive bid process will be the date of award through May 31, 2017. Based upon the last procurement process, I anticipate it may take approximately eight weeks for the evaluation process. If the evaluation process takes eight weeks, contracts may not be awarded the end of September. If contracts are not awarded until the end of September, the newly awarded contracts will have an original contract period of only eight months.

Therefore, due to the approximate 12-month period required for rebidding and the eight-month original contract period, I am requesting permission to include three (3) renewal options in the Alternative to Abortion RFP.

Please advise if acceptable.

Thank you for your consideration.

# MEMORANDUM

Office of Administration  
Division of Purchasing and Materials Management

**TO:** Laura Ortmeier *LO*  
**FROM:** Julie Kleffner *OK*  
**DATE:** May 16, 2016  
**RE:** Solicitation of Competitive Proposals for Alternatives to Abortion Program Services

It has been determined that the procurement of Alternative to Abortion Program services by means of competitive bidding would be neither practicable nor advantageous to the State of Missouri. Therefore, the Division of Purchasing has decided, in accordance with section 34.042, RSMo, to utilize the competitive proposal method for the following reasons.

The complex requirements of this solicitation justify the competitive proposal method as being more beneficial than the solicitation of competitive bids. The procurement through the use of competitive proposals will also maximize the state's potential to receive the most flexible and creative solutions from offerors and allow the State of Missouri to select the solution that will provide the optimal combination of price and quality.
